# GLOBAL HEALTH TUESDAY

## **CURBING HIV: GLOBAL DIAGNOSTIC CHALLENGES AND NEEDS FOR CURBING THE HIV EPIDEMIC**

with Lara Vojnov, Ph.D., diagnostics advisor, HIV & Hepatitis Department, World Health Organization, and Global Health Institute Visiting Scholar

*Vojnov will discuss the progress and challenges in diagnosing and monitoring HIV in limited resource settings. Using a public health approach to disease management, she will look at critical global policies and practices that have supported the expansion of diagnostics to nearly 40 million people living with HIV. She will also consider some of the key gaps and strategies under consideration in an attempt to curb the epidemic. Her visit is supported by a UW-Madison Global Health Institute Visiting Scholars Award.*
