Positive Psychology Webinar Series: Applications in Professional Settings and in Life

Featuring UW-Madison's [Dr. Susan Smedema and Dr. Garrett Huck](#)

Positive psychology is an emerging field focusing on what is “right” in human beings and strategies for enhancing those experiences. Applicable for school-based and clinical nurses, psychologists, social workers, and professional counselors and educators, attend one or both of the upcoming sessions.

Session One: Introduction to Positive Psychology and the Pillars of Well-Being

April 5 | 11:00am - 1:00 pm CT | \$75

[Register Now](#)

Session one will focus on the five elements of well-being theory in addition to a discussion on factors that contribute to each of these elements. Participants will engage in small group discussions to study the nature of these topics.

Session Two: Enhancing Human Functioning and Flourishing

April 26 | 11:00am - 1:00 pm CT | \$75

[Register Now](#)

Session two will offer an overview and opportunities for small group discussion on factors that encourage human flourishing, including identifying and applying character strengths, resiliency, hope, optimism, and empathy.
