

Are you an advanced nursing practice (ANP) student with a recent simulation debriefing experience?

JOIN US IN AN IMPORTANT STUDY ABOUT:

Debriefing in ANP Simulation-Based Education: A Survey

The purpose of this study is to examine the associations among debriefer engagement, student engagement, debriefing quality, and student learning outcomes (cognitive, affective, and behavior learning) in advanced nursing practice (ANP) simulation-based education.

Who is eligible to participate?

- ANP students who are currently enrolled in an ANP program (MSN, Post-MSN certificate, or DNP program) at a college or university in the US.
- Have experienced debriefing after a simulation-based learning activity in their current or prior semester.

Procedures

- You are asked to complete a 10- to 15-minute, anonymous, online survey.
- The survey will not ask your name or any identifying information.
- The survey questions are about your debriefing experience and your learning outcomes.
- Your responses will be kept confidential.

Compensation: At the end of the survey, you have the option to receive a \$20 gift card.
